Excellent Computing Performance

The CV-100/P2202 series is equipped with the 12th Gen Intel® Core™ i5/i3 U-series (Alder Lake-P) processor based on the Intel® 7 process. The U-series has a low power consumption of only 15W, boasts excellent performance with up to 10 cores (2P+8E), and includes the built-in Intel® Iris Xe graphics to easily handle image classification inference performance in AI deep learning.

CDS Patented Technology

Cincoze Convertible Display System (CDS) patented technology makes field-side maintenance and future upgrades easier. Replacing a display or improving system performance only requires replacing a single component, which significantly cuts upgrade costs.

Patent No. M482908

Complete Range of Sizes

The CV-100/P2202 series has a diverse product portfolio, ranging from screen size (12 to 24 inches), display ratio (4:3, 5:4, and 16:9) to touch methods (multi-point P-Cap and single-point resistive), which can be selected based on application requirements.

Rugged, Safe, & More Reliable

To face harsh and rugged usage environments, the CV-100/P2202 series has a series of industrial-grade protections, including a wide operating temperature range, a wide range DC power input (9 to 48VDC), and a dustproof/water resistant IP65 front panel, which is beneficial for applications such as field-side HMI or production process visualization.
